Tougaloo College  
Tougaloo, Mississippi  
February 5, 1956

Dear Eddie,

Hi Friend, how are you now that the new semester has begun? I just know you are just eager to blow off steam in class. I'm not in the least. I came on your campus twice week before last to see Dr. Price about a chemistry problem I was working on. I got to see him only to find out he's not an organic chemist.

Well, now is everything set for Sunday? I have written to Rust College and to Mississippi State. I think we can expect representatives from both schools. We plan also to bring over a large crowd. Everyone here was pleased with the last meeting.

I'll be looking forward to seeing you Sunday. Oh yes, don't forget the executive meeting at 2 o'clock.

Cardially,  
Neil
