Dear Ed,

We have been thinking of you often these last few weeks, especially since seeing you in a brief but rather frantic scene on the TV news last week.

Dr. Borinski called over the weekend and reported that you were in fair shape physically - he didn't comment on your spirits. Then last evening Dean Ferguson called to report a second-hand account of some distressing developments in your relation to the annual conference. These must be very trying times for you and Jeannette.

I am sorry to have missed you on my very brief visit to Tougaloo in February. We are to be in Jackson early in July and I will make it a point to see you then.

We send our best regards to you and Jeannette and hope that Mississippians will soon come to their senses enough to work out a just solution to their perennial problem.

Sincerely yours,
George Maddox
